

Abcam

Abcam is a leading supplier of research tools to the global life sciences community, in more than 130 countries. The project involved the construction of new 1200m² headquarters including laboratories, office accommodation, collaboration spaces and amenity facilities to allow Abcam's 450 staff to work within the same building whilst offering significant room for future growth.

MSAFE Client NBBJ Architects then Kier
MSAFE Role CDM Advisor to Project Client and Principal Designer
