

# Banyard Construction

MSAFE Risk Management have supported Banyard Construction since 2009. We work alongside to ensure they and their clients are managing health and safety effectively and complying with CDM 2015, our role includes:

- Assistance with Construction Management Plans to meet with planning conditions.
- Development of CDM Construction Phase Health and Safety Plans for projects.
- Undertaking site health and safety monitoring visits.
- Assistance with risk assessments and safe systems of work.
- Chairing management review meetings.
- Principal Designer Advisor.
